- Wallis, O. C. & Wallis, M.** A recombinant DNA-derived ovine GH analogue 61
- Wang, M. -W., Whyte, A., Heap, R. B. & Taussig, M. J.** Progesterone antibody targets uterine tissue 283
- Weiss, E. R., Heller-Harrison, R. A., Diez, E., Crasnier, M., Malbon, C. C. & Johnson, G. L.** Rhodopsin inhibition of adenylyl cyclase 71
- Whyte, A.**, *see* Wang *et al.*
- Wolinska-Witort, E.**, *see* Corbani *et al.*
- Woods, D. J., Soden, J., Tomlinson, S. & Bidey, S. P.** Na⁺/H⁺ exchange and thyroid cell growth 177
- Wright, P. S., Lenney, C. & Carlson, D. M.** Tissue-specific inducible gene expression 81

Subject index

- Acetyl-CoA carboxylase**, GH and activity of, in epididymal fat pad, little mouse (Ng *et al.*) 43
- Acylation**, and internalization of GRF, rat pituitary (Saermark *et al.*) 51
- Adenylate cyclase**, activity of, effects of noradrenaline and somatostatin on, rat (Hurst & Morgan) 231
- Adenylyl cyclase**, activity of, rhodopsin and, hamster ovary (Weiss *et al.*) 71
- Adrenal**, ACTH inhibition of P-450_{scc} and P-450c21 mRNAs in, rat (Imai *et al.*) 239
- Adrenocorticotrophin (ACTH)**, inhibition of adrenal P-450_{scc} and P-450c21 mRNAs by, rat (Imai *et al.*) 239
- Angiotensinogen**, anti-sense RNA for, rat hepatoma cells (Clouston *et al.*) 107
- Anti-sense RNA**, for angiotensinogen, rat hepatoma cells (Clouston *et al.*) 107
- Ca²⁺**, influx of, somatostatin and, rat islets (Hurst & Morgan) 231
- Calbindin-D_{28K}**, synthesis of, laying hen (Bar *et al.*) 93
- Cattle**, conceptus interferon- α 2 gene (Stewart *et al.*) 275
- Cell polarity**, and TSH-regulated thyroglobulin exocytosis, pig (Chambard *et al.*) 193
- Cerulenin**, and internalization of GRF, rat pituitary (Saermark *et al.*) 51
- C-fos**, GH-induced induction of, mouse osteoblast (Slootweg *et al.*) 265
- Chloramphenicol acetyl transferase**, gene expression of, human pituitary (Balfour *et al.*) 187
- Cholesterol side-chain cleavage cytochrome P-450 (P-450_{scc})**, adrenal mRNA for, ACTH and, rat (Imai *et al.*) 239
- C-myc**, GH-induced induction of, mouse osteoblast (Slootweg *et al.*) 265
- Conceptus**, structure of interferon- α 2 gene from, cattle (Stewart *et al.*) 275
- Cortisol**, and glycoprotein from MMTV in normal mammary epithelium, mouse (Bolander & Blackstone) 101
- Cyclic AMP**, and expression of proCCK and proenkephalin A mRNA, human neuroblastoma cells (Monstein *et al.*) 37 and proline-rich protein gene expression, hamster parotid gland (Wright *et al.*) 81
- 1,25-Dihydroxyvitamin D₃**, and calbindin-D_{28K} mRNA, laying hen (Bar *et al.*) 93
- cDNA**, CG- β subunit, donkey (Leigh & Stewart) 143 epididymal androgen-regulated protein, cloning of, mouse (Ghyselinck *et al.*) 5 for IGF-I, fowl (Fawcett & Bulfield) 201 prolactin, molecular cloning of, pig (Kato *et al.*) 135 type-II gonadotrophin β subunit, cloning of, eel (Quérat *et al.*) 257
- Donkey**, CG- β subunit cDNA (Leigh & Stewart) 143
- Eel**, cloning of type-II gonadotrophin β subunit cDNA (Quérat *et al.*) 257
- Eggshell gland**, calbindin-D_{28K} synthesis in, laying hen (Bar *et al.*) 93
- Epidermal growth factor (EGF)**, expression of, in lachrymal gland, mouse (Kasayama *et al.*) 31
- Epididymis**, androgen-regulated proteins in, cloning of cDNA for, mouse (Ghyselinck *et al.*) 5 lipid metabolism in fat pad of, GH and, little mouse (Ng *et al.*) 43
- Escherichia coli**, recombinant DNA-derived ovine GH analogue expressed in (Wallis & Wallis) 61
- Exocytosis**, thyroglobulin, TSH-regulated, pig (Chambard *et al.*) 193
- Fat**, metabolism of, GH and, little mouse (Ng *et al.*) 43
- Follicle-stimulating hormone (FSH)**, mRNA β subunit for, gonadal steroids and, rat and mouse (Rodin *et al.*) 159
- Follicles**, expression of inhibin subunit genes in, during pregnancy, rat and mouse (Penschow *et al.*) 247
- Fowl**, calbindin-D_{28K} synthesis in laying hen (Bar *et al.*) 93 feedback inhibition of GH secretion (Harvey & Baidwan) 13 GH-binding sites in hypothalamus (Attardo & Harvey) 23 IGF-I cDNA (Fawcett & Bulfield) 201 somatostatin binding to pituitary membranes (Harvey *et al.*) 213 T₃ down-regulation of TRH-binding sites (Harvey & Baidwan) 127 TRH and release of GH (Harvey & Baidwan) 223
- FRTL-5 cells**, growth of, Na⁺/H⁺ exchange and, rat (Woods *et al.*) 177
- G proteins**, rhodopsin and, hamster ovary (Weiss *et al.*) 71
- Gene expression**, adrenal P-450_{scc} and P-450c21, ACTH and, rat (Imai *et al.*) 239 EGF, in lachrymal gland, mouse (Kasayama *et al.*) 31 glycoprotein α subunit, human pituitary (Balfour *et al.*) 187 human POMC, in rat glial cells (Usui *et al.*) 169 IGF-I, fowl (Fawcett & Bulfield) 201 Inhibin subunit, in pregnancy, rat and mouse (Penschow *et al.*) 247 LH, progesterone and, rat (Corbani *et al.*) 119 proCCK, human neuroblastoma cells (Monstein *et al.*) 37 proline-rich protein, hamster parotid gland (Wright *et al.*) 81 recombinant DNA-derived ovine GH analogue, in *E. coli* (Wallis & Wallis) 61
- Glial cells**, rat, human POMC gene expression in (Usui *et al.*) 169
- Gonadotrophin, chorionic (CG)**, cDNA for β subunit of, donkey (Leigh & Stewart) 143
- Gonadotrophin type-II**, cloning of β subunit of, eel (Quérat *et al.*) 257
- Growth hormone (GH)**, and binding of TRH to pituitary membranes, fowl (Harvey & Baidwan) 13 and lipid metabolism, little mouse (Ng *et al.*) 43 hypothalamic binding sites for, fowl (Attardo & Harvey) 23 osteoblast receptor for, activation of, mouse (Slootweg *et al.*) 265 recombinant DNA-derived ovine analogue of, expressed in *E. coli* (Wallis & Wallis) 61 release of, TRH and, fowl (Harvey & Baidwan) 223 secondary structure and hydrophathy of, pig (Kato *et al.*) 135 secretion of, and somatostatin-binding sites, chicken pituitary membranes (Harvey *et al.*) 213 thyroidal inhibition of, fowl (Harvey & Baidwan) 127
- Growth hormone-releasing factor (GRF)**, inhibition of internalization of, rat pituitary (Saermark *et al.*) 51
- Hamster**, proline-rich protein gene expression (Wright *et al.*) 81 rhodopsin inhibition of adenylyl cyclase (Weiss *et al.*) 71
- Hepatoma cells**, anti-sense RNA for angiotensinogen in, rat (Clouston *et al.*) 107
- Hypophysis**, hypophysectomy and adrenal P-450_{scc} and P-450c21 mRNAs, rat (Imai *et al.*) 239
- Hypothalamus**, GH-binding sites in, fowl (Attardo & Harvey) 23

- poly(A) length polymorphism of oxytocin and LVP mRNAs in, pig (Rehbein & Richter) 151
- Implantation**, progesterone monoclonal antibody and, mouse (Wang *et al.*) 283
- Inhibin**, expression of subunit genes for, in pregnancy, rat and mouse (Penschow *et al.*) 247
- Insulin**, and glycoprotein from MMTV in normal mammary epithelium, mouse (Bolander & Blackstone) 101
secretion of, effects of noradrenaline and somatostatin on, rat (Hurst & Morgan) 231
- Insulin-like growth factor-I (IGF-I)**, and c-fos induction, mouse osteoblast (Slootweg *et al.*) 265
cDNA for, fowl (Fawcett & Bulfield) 201
-mediated FRTL-5 cell growth, Na⁺/K⁺ exchange and, rat (Woods *et al.*) 177
- Interferon- α 2**, structure of gene for, bovine conceptus (Stewart *et al.*) 275
- Intestine**, calbindin-D_{28K} synthesis in, laying hen (Bar *et al.*) 93
- Ion transport**, and growth of FRTL-5 cells, rat (Woods *et al.*) 177
- Islets of Langerhans**, effects of noradrenaline and somatostatin on, rat (Hurst & Morgan) 231
- Isoproterenol**, and proline-rich protein gene expression, hamster parotid gland (Wright *et al.*) 81
- Kidney**, EGF gene expression in, mouse (Kasayama *et al.*) 31
- Lachrymal gland**, EGF gene expression in, mouse (Kasayama *et al.*) 31
- Lipogenesis**, in epididymal fat pad, GH and, little mouse (Ng *et al.*) 43
- Luteinizing hormone (LH)**, mRNA subunits for, progesterone regulation of, rat (Corbani *et al.*) 119
- Lysine vasopressin (LVP)** poly(A) length polymorphism of mRNA for, pig (Rehbein & Richter) 151
- Mammary gland**, regulation of glycoprotein from MMTV, normal mouse (Bolander & Blackstone) 101
- Man**, expression of glycoprotein α subunit gene in pituitary (Balfour *et al.*) 187
human POMC gene expression in rat glial cells (Usui *et al.*) 169
proCCK mRNA expression in neuroblastoma cells (Monstein *et al.*) 37
- Monoclonal antibody**, progesterone, uterine targeting of, mouse (Wang *et al.*) 283
- Mouse**, activation of osteoblast GH receptor (Slootweg *et al.*) 265
cloning of androgen-regulated epididymal proteins (Ghyselinck *et al.*) 5
EGF gene expression in lachrymal gland (Kasayama *et al.*) 31
expression of inhibin subunit genes in pregnancy (Penschow *et al.*) 247
gonadal steroids and FSH- β mRNA (Rodin *et al.*) 159
little, GH and lipid metabolism (Ng *et al.*) 43
progesterone antibody targets uterine tissue (Wang *et al.*) 283
regulation of glycoprotein from MMTV in normal mammary epithelium (Bolander & Blackstone) 101
- Mouse mammary tumour virus (MMTV)**, regulation of glycoprotein from, in normal mammary epithelium, mouse (Bolander & Blackstone) 101
- Na⁺/H⁺ exchange**, and growth of FRTL-5 cells, rat (Woods *et al.*) 177
- Neuroblastoma cells**, SK-N-MC, proCCK mRNA expression in, man (Monstein *et al.*) 37
- Noradrenaline**, and expression of proCCK and proenkephalin A mRNA, human neuroblastoma cells (Monstein *et al.*) 37
effects of, on islet messenger systems, rat (Hurst & Morgan) 231
- Oestradiol**, and FSH- β mRNA, rat and mouse (Rodin *et al.*) 159
and LH mRNA, rat (Corbani *et al.*) 119
- Oncogenes**, GH-induced induction of, mouse osteoblast (Slootweg *et al.*) 265
- Ontogeny**, length polymorphism of oxytocin and LVP mRNAs during, pig (Rehbein & Richter) 151
- Osteoblasts**, activation of GH receptor on, mouse (Slootweg *et al.*) 265
- Ovary**, adenyl cyclase activity in, rhodopsin and, hamster ovary (Weiss *et al.*) 71
follicular expression of inhibin subunit genes in, during pregnancy, rat and mouse (Penschow *et al.*) 247
- Oxytocin**, poly(A) length polymorphism of mRNA for, pig (Rehbein & Richter) 151
- Parotid gland**, proline-rich protein gene expression in, hamster (Wright *et al.*) 81
- Pig**, molecular cloning of cDNA for prolactin (Kato *et al.*) 135
poly(A) length polymorphism of oxytocin and LVP mRNAs (Rehbein & Richter) 151
TSH-regulated exocytosis of thyroglobulin (Chambard *et al.*) 193
- Pituitary cells**, expression of glycoprotein α subunit gene, man (Balfour *et al.*) 187
inhibition of internalization of GRF in, rat (Saermark *et al.*) 51
- Pituitary gland**, binding of TRH to membranes from, GH and, fowl (Harvey & Baidwan) 13
down-regulation of TRH binding in, and GH release, fowl (Harvey & Baidwan) 223
LH mRNA in, progesterone and, rat (Corbani *et al.*) 119
somatostatin binding in, fowl (Harvey *et al.*) 213
TRH-binding sites on, T₃ and, fowl (Harvey & Baidwan) 127
- Poly(A) tail**, length polymorphism of, oxytocin and LVP mRNAs, pig (Rehbein & Richter) 151
- Pregnancy**, expression of inhibin subunit genes in, rat and mouse (Penschow *et al.*) 247
progesterone-antibody blockade of, mouse (Wang *et al.*) 283
- Procholecystokinin (proCCK)**, mRNA expression of, human neuroblastoma cells (Monstein *et al.*) 37
- Proenkephalin A**, mRNA expression of, human neuroblastoma cells (Monstein *et al.*) 37
- Progesterone**, and LH mRNA, rat (Corbani *et al.*) 119
uterine targeting of, antibody against, mouse (Wang *et al.*) 283
- Prolactin**, and glycoprotein from MMTV in normal mammary epithelium, mouse (Bolander & Blackstone) 101
cDNA for, pig (Kato *et al.*) 135
- Proline-rich protein**, expression of, cyclic AMP and, hamster parotid gland (Wright *et al.*) 81
- Pro-opiomelanocortin (POMC)**, human, gene expression of, rat glial cell (Usui *et al.*) 169
- Rat**, ACTH inhibition of adrenal P-450_{scc} and P-450_{c21} mRNAs (Imai *et al.*) 239
anti-sense RNA for angiotensinogen (Clouston *et al.*) 107
effects of noradrenaline and somatostatin on islets (Hurst & Morgan) 231
expression of inhibin subunit genes in pregnancy (Penschow *et al.*) 247
gonadal steroids and FSH- β mRNA (Rodin *et al.*) 159
inhibition of internalization of GRF (Saermark *et al.*) 51

- Na⁺/H⁺ exchange and growth of FRTL-5 cells (Woods *et al.*) 177
- progesterone regulation of LH mRNA (Corbani *et al.*) 119
- Receptors**, GRF, internalization of, rat pituitary (Saermark *et al.*) 51
- osteoblast GH, activation of, mouse (Slootweg *et al.*) 265
- progesterone, and regulation of LH mRNA, rat (Corbani *et al.*) 119
- TRH, down-regulation by T₃, fowl (Harvey & Baidwan) 127
- uterine progesterone, progesterone antibody and, mouse (Wang *et al.*) 283
- Rhodopsin**, and adenylyl cyclase activity, hamster ovary (Weiss *et al.*) 71
- RNA**, angiotensinogen anti-sense, rat hepatoma cells (Clouston *et al.*) 107
- mRNA**, androgen-regulated protein, mouse epididymus (Ghyselinck *et al.*) 5
- calbindin-D_{28K}, regulation of, laying hen (Bar *et al.*) 93
- EGF, lachrymal gland, mouse (Kasayama *et al.*) 31
- FSH-β, gonadal steroids and, rat and mouse (Rodin *et al.*) 159
- LH, progesterone regulation of, rat (Corbani *et al.*) 119
- oxytocin and LVP, poly(A) length polymorphism of, pig (Rehbein & Richter) 151
- proCCK and proenkephalin A, expression of, human neuroblastoma cells (Monstein *et al.*) 37
- adrenal P-450scc and P-450c21, ACTH and, rat (Imai *et al.*) 239
- Sheep**, recombinant DNA-derived ovine GH analogue (Wallis & Wallis) 61
- Somatostatin**, binding of, to pituitary membranes, fowl (Harvey *et al.*) 213
- effects of, on islet messenger systems, rat (Hurst & Morgan) 231
- Steroid 21-hydroxylase cytochrome P-450 (P-450c21)**, adrenal mRNA for, ACTH and, rat (Imai *et al.*) 239
- Submandibular gland**, EGF gene expression in, mouse (Kasayama *et al.*) 31
- α Subunit**, glycoprotein hormone, expression of, human pituitary (Balfour *et al.*) 187
- Testosterone**, and EGF gene expression in lachrymal gland, mouse (Kasayama *et al.*) 31
- and epididymal mRNA, mouse (Ghyselinck *et al.*) 5
- and FSH-β mRNA, rat and mouse (Rodin *et al.*) 159
- Thyroglobulin**, TSH-regulated exocytosis of, pig (Chambard *et al.*) 193
- Thyroid cells**, FRTL-5, growth of, Na⁺/H⁺ exchange and, rat (Woods *et al.*) 177
- TSH-regulated thyroglobulin exocytosis from, pig (Chambard *et al.*) 193
- Thyrotrophin (TSH)**, and FRTL-5 cell growth, rat (Woods *et al.*) 177
- regulated thyroglobulin exocytosis, pig (Chambard *et al.*) 193
- Thyrotrophin-releasing hormone (TRH)**, and GH release, fowl (Harvey & Baidwan) 223
- binding sites, T₃ and, fowl (Harvey & Baidwan) 127
- pituitary binding of, GH and, fowl (Harvey & Baidwan) 13
- Thyroxine (T₄)**, and EGF gene expression in lachrymal gland, mouse (Kasayama *et al.*) 31
- Tri-iodothyronine (T₃)**, down-regulation of TRH-binding sites by, fowl (Harvey & Baidwan) 127
- regulated expression of glycoprotein α subunit gene, human pituitary (Balfour *et al.*) 187
- Trophoblast**, interferon from, structure of gene for, cattle (Stewart *et al.*) 275
- Uterus**, monoclonal progesterone antibody and, mouse (Wang *et al.*) 283
