Issue Number 5, November 2010

257–279  REVIEW: Genes involved in human premature ovarian failure  Luca Persani, Raffaella Rossetti & Chiara Cacciatore

291–299  The high level of RANTES in the ectopic milieu recruits macrophages and induces their tolerance in progression of endometriosis  Xiao-Qiu Wang, Jing Yu, Xue-Zhen Luo, Ying-Li Shi, Yun Wang, Ling Wang & Da-Jin Li

301–315  A study of somatolactin actions by ectopic expression in transgenic zebrafish larvae  Guohui Wan & King Ming Chan

317–327  Rainbow trout somatostatin receptor subtypes SSTR1A, SSTR1B, and SSTR2 differentially activate the extracellular signal-regulated kinase and phosphatidylinositol 3-kinase signaling pathways in transfected cells  Alison L Hagemeister, Jeffrey D Kittilson, Heather E Bergan & Mark A Sheridan

329–340  Dietary protein deprivation upregulates insulin signaling and inhibits gluconeogenesis in rat liver  Yuka Toyoshima, Reiko Tokita, Yoichiro Ohne, Fumihiko Hakuno, Tadashi Noguchi, Shiro Minami, Hisanori Kato & Shin-Ichiro Takahashi

341–353  Suppressor of cytokine signaling 3 knockdown in the mediobasal hypothalamus: counterintuitive effects on energy balance  M W A de Backer, M A D Brans, A J van Rozen, E M van der Zwaal, M C M Luijendijk, K G Garner, M de Krom, O van Beekum, S E la Fleur & R A H Adan
