The Society for Endocrinology is one of the world’s leading authorities on hormones. Established in 1946, the Society’s aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including *Journal of Endocrinology*, *Journal of Molecular Endocrinology*, *Endocrine-Related Cancer*, *Endocrine Connections* (open access) and *Clinical Endocrinology*.

**COVER ART COMPETITION**

Readers are invited to submit their endocrinology images for entry into the *Journal of Molecular Endocrinology* cover art competition. Winners will be selected by the Editor-in-Chief and will have their imagery featured on the cover of an issue of *Journal of Molecular Endocrinology*, both in print and online. Winners will be cited in the journal and will receive a professionally printed copy of the journal cover featuring their scientific image.

To enter the competition please email your images to jme@endocrinology.org accompanied with a short caption of 25-30 words explaining what the image depicts, its magnification and who should be acknowledged for its production. Images should be of high quality and resolution of at least 300 dpi at the final published size 220 mm (W) × 100 mm (H).

By submitting an image you warrant that you own the copyright and agree that images may be used in promotional material. Images not selected for use may still be used by the Society for Endocrinology and Bioscientifica for promotional purposes.

**THIS ISSUE’S COVER**

The image depicts the expression of ABCA1 in the human preterm placenta, particularly of ABCA1 in cyto and syncytiotrophoblasts. The image was taken as part of an Ob/Gyn Resident Research Project investigating whether IUGR pregnancies have greater or worse cholesterol efflux to the fetus.

CONTENTS

VOLUME 51 NUMBER 2

REVIEWS

The regulation and function of the NUAK family
Xianglan Sun, Ling Gao, Hung-Yu Chien, Wan-Chun Li & Jiajun Zhao
R15–R22

Structural determinants regulating cell surface targeting of melanocortin receptors
A R Rodrigues, D Sousa, H Almeida & A M Gouveia
R23–R32

Astrocytes: new targets of melanocortin 4 receptor actions
Carla Caruso, Lila Carniglia, Daniela Durand, Teresa N Scimonelli & Mercedes Lasaga
R33–R50

Metabolic endotoxemia: a molecular link between obesity and cardiovascular risk
Ana Luísa Neves, João Coelho, Luciana Couto, Adelino Leite-Moreira & Roberto Roncon-Albuquerque Jr
R51–R64

Influence of chronic hyperglycemia on the loss of the unfolded protein response in transplanted islets
Stacey N Walters, Jude Luzuriaga, Jeng Yie Chan, Shane T Grey & D Ross Laybutt
225–232

Estradiol and tamoxifen regulate NRF-1 and mitochondrial function in mouse mammary gland and uterus
Margarita M Ivanova, Brandie N Riddle, Jeun Son, Fabiola P Mehta, Sang-Hyuk Chung & Carolyn K Klinge
233–246

Aromatase activity induction in human adipose fibroblasts by retinoic acids via retinoic acid receptor α
Jan Wilde, Maria Erdmann, Michael Mertens, Gabriele Eiseit & Martin Schmidt
247–260

Characterization of the novel duplicated PRLR gene at the late-feathering K locus in Lohmann chickens
Guixian Bu, Guilian Huang, Hao Fu, Juan Li, Simiao Huang & Yajun Wang
261–276

RESEARCH

PKC and ERK mediate GH-stimulated lipolysis
Heather E Bergan, Jeffrey D Kittilson & Mark A Sheridan
213–224

Influence of chronic hyperglycemia on the loss of the unfolded protein response in transplanted islets
Stacey N Walters, Jude Luzuriaga, Jeng Yie Chan, Shane T Grey & D Ross Laybutt
225–232

Estradiol and tamoxifen regulate NRF-1 and mitochondrial function in mouse mammary gland and uterus
Margarita M Ivanova, Brandie N Riddle, Jeun Son, Fabiola P Mehta, Sang-Hyuk Chung & Carolyn K Klinge
233–246

Aromatase activity induction in human adipose fibroblasts by retinoic acids via retinoic acid receptor α
Jan Wilde, Maria Erdmann, Michael Mertens, Gabriele Eiseit & Martin Schmidt
247–260

Characterization of the novel duplicated PRLR gene at the late-feathering K locus in Lohmann chickens
Guixian Bu, Guilian Huang, Hao Fu, Juan Li, Simiao Huang & Yajun Wang
