CONTENTS

VOLUME 55
NUMBER 2

REVIEWS

Cellular mechanisms of MR regulation of adipose tissue physiology and pathophysiology R1-R10
Andrea Armani, Vincenzo Marzolla, Andrea Fabbri & Massimiliano Caprio

Stress kinases in the modulation of metabolism and energy balance R11-R22
Elisa Manieri & Guadalupe Sabio

Bone remodeling in the context of cellular and systemic regulation: the role of osteocytes and the nervous system R23-R36
Tadeusz Niedźwiedzki & Joanna Filipowska

RESEARCH

Gene expression changes in subcutaneous adipose tissue due to Cushing’s disease 81-94
Irit Hochberg, Innocence Harvey, Quynh T Tran, Erin J Stephenson, Ariel L Barkan, Alan R Saltiel, William F Chandler & Dave Bridges

Distinct functions of neuromedin u and neuromedin s in orange-spotted grouper 95-106
Shuisheng Li, Ling Xiao, Qiongyu Liu, Binbin Zheng, Huapu Chen, Xiaochun Liu, Yong Zhang & Haoran Lin

Functions of DPLIY motif and helix 8 of human melanocortin-3 receptor 107-117
Zhao Yang, Zhi-Li Huang & Ya-Xiong Tao

Inhibition of 11β-HSD1 by LG13 improves glucose metabolism in type 2 diabetic mice 119-131
Laping Zhao, Yong Pan, Kexiong Peng, Zhe Wang, Jie Li, Dan Li, Chao Tong, Yi Wang & Guang Liang

Endothelial glucocorticoid receptor promoter methylation according to dexamethasone sensitivity 133-146
Eugenia Mata-Greenwood, P. Naomi Jackson, William J Pearce & Lubo Zhang

Truncation of POCT1A associated with short stature and extreme insulin resistance 147-158
Jian-Hua Chen, Maria Segni, Felicity Payne, Isabel Huang-Doran, Alison Sleigh, Claire Adams, UK09 Consortium, David B Savage, Stephen O’Rahilly, Robert K Semple & Indo Barros

Promoter-specific regulation of PPARGC1A gene expression in human skeletal muscle 159-168
Daniil V Popov, Evgeny A Lysenko, Tatiana F Vepkhvadze, Nadia S Kurochkina, Pavel A Maknovskii & Olga L Vinogradova

The Society for Endocrinology is one of the world’s leading authorities on hormones. Established in 1946, the Society’s aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including *Journal of Endocrinology*, *Journal of Molecular Endocrinology*, *Endocrine-Related Cancer*, *Endocrine Connections* (open access) and *Clinical Endocrinology*.

For more information visit [www.endocrinology.org](http://www.endocrinology.org)

Readers are invited to submit their endocrinology images for entry into the *Journal of Molecular Endocrinology* cover art competition. Winners will be selected by the Editor-in-Chief and will have their imagery featured on the cover of an issue of *Journal of Molecular Endocrinology*, both in print and online. Winners will be cited in the journal and will receive a professionally printed copy of the journal cover featuring their scientific image.

To enter the competition please email your images to jme@endocrinology.org accompanied with a short caption of 25-30 words explaining what the image depicts, its magnification and who should be acknowledged for its production. Images should be of high quality and resolution of at least 300 dpi at the final published size 220 mm (W) × 100 mm (H).

By submitting an image you warrant that you own the copyright and agree that images may be used in promotional material. Images not selected for use may still be used by the Society for Endocrinology and Bioscientifica for promotional purposes.

**This Issue’s Cover**

The images depict (l) immunocytochemical staining for vimentin (red), GFAP (green) and nuclear staining with DAPI (blue) in rat hypothalamus, and (r) immunocytochemical staining for vimentin (red), GFAP (green) and nuclear staining with DAPI (blue) in a primary culture of rat cortical glial type cells.
