CONTENTS

VOLUME 56 NUMBER 3

REVIEW
Role of co-regulators in metabolic and transcriptional actions of thyroid hormone
Inna Astapova
R73–R97

System-L amino acid transporters play a key role in pancreatic β-cell signalling and function
Qi Cheng, Violeta D Beltran, Stanley M H Chan, Jeremy R Brown, Alan Bevington & Terence P Herbert
175–187

RESEARCH
Calcium-dependent Nr4a1 expression in mouse Leydig cells requires distinct API/CRE and MEF2 elements
Houssein S Abdou, Nicholas M Robert & Jacques J Tremblay
151–161

Exendin-4 promotes proliferation and differentiation of MC3T3-E1 osteoblasts by MAPKs activation
Yingyu Feng, Lei Su, Xing Zhong, Guohong Wei, Haipeng Xiao, Yanbing Li & Lingling Xiu
189–199

KLF6 cooperates with NUR77 and SF1 to activate the human INSL3 promoter in mouse MA-10 Leydig cells
Maxime A Tremblay, Raifish E Mendoza-Villarroel, Nicholas M Robert, Francis Bergeron & Jacques J Tremblay
163–173

Peptide production and secretion in GLUTag, NCI-H716, and STC-1 cells: a comparison to native L-cells
Rune Ehrenreich Kuhre, Nicolai Jacob Wewer Albrechtsen, Carolyn Fiona Deacon, Emilie Balk-Møller, Jens Frederik Rehfeld, Frank Reimann, Fiona Mary Gribble & Jens Juul Holst
201–211

Readers are invited to submit their endocrinology images for entry into the Journal of Molecular Endocrinology cover art competition. Winners will be selected by the Editor-in-Chief and will have their imagery featured on the cover of an issue of Journal of Molecular Endocrinology, both in print and online. Winners will be cited in the journal and will receive a professionally printed copy of the journal cover featuring their scientific image.

To enter the competition please email your images to jme@endocrinology.org accompanied with a short caption of 25-30 words explaining what the image depicts, its magnification and who should be acknowledged for its production. Images should be of high quality and resolution of at least 300 dpi at the final published size 220 mm (W) × 100 mm (H).

By submitting an image you warrant that you own the copyright and agree that images may be used in promotional material. Images not selected for use may still be used by the Society for Endocrinology and Bioscientifica for promotional purposes.

The image depicts a photomicrograph of a hematoxylin- and eosin-stained section of pig small intestine. The intact intestinal villus is crucial to maintain the intestinal barrier function. From Cui & Gu 2015 55 277-293.

The Society for Endocrinology is one of the world's leading authorities on hormones. Established in 1946, the Society's aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including Journal of Endocrinology, Journal of Molecular Endocrinology, Endocrine-Related Cancer, Endocrine Connections (open access) and Clinical Endocrinology.
